HRchitect

WorkForce Software Implementation Partner

The world of Workforce Management (WFM) is constantly changing. Organizations fight the war on attracting and retaining top talent, while WFM and Human Capital Management (HCM) vendors rapidly innovate to meet the need. The result is a seemingly endless array of choices, with no clear fit for your unique business. Are you prepared to start a new HR or WFM technology initiative without an expert by your side?

HRchitect offers you relief from this volatile situation by pairing your company with experts who work alongside your team to build a roadmap for your HCM/WFM technology, select a new or replacement system, implement and integrate your new technology, provide managed support services and everything in between.

HRchitect has been involved in many of the most successful HCM/WFM implementations for all the major vendors, with a particular expertise around **WorkForce Software**. With HCM/WFM projects completed for thousands of clients across the globe of all sizes and industries since 1997, our experience is vast. We work in a very collaborative manner so as to constantly share information and bring in specific resources as needed to ensure a success while reducing project risk.

Some of our experience as an official WorkForce Software Implementation Partner include:

- As the longest tenured partner (since 2010), HRchitect has been involved in **WorkForce Software** projects at more than 150 companies across the globe, and is considered the go-to implementation partner for **WorkForce Software**
- HRchitect is brought into the most complex implementation projects because of our system knowledge, industry expertise and track record of success effectively managing challenging implementation projects from both implementation complexity and demanding client culture standpoints
- Our **WorkForce Software Center of Excellence (COE)** offers highly trained and experienced internal staff who provide collaborative support for our implementation consultants. This experience includes Project Management, Functional Consulting, Technical Configuration, Training and User Adoption, Change Management, Optimization, Integration and Managed Support Services.
- HRchitect's vast experience implementing most major HCM systems, including ADP, Ceridian, iCIMS, Oracle, SAP SuccessFactors, SAP Time Management, UKG and many others allows us to easily integrate your WorkForce Software system with other HCM systems you are using
- We focus on supporting organizations in exceeding their expectations of a significant **Return on Investment (ROI)** from their **WorkForce Software** system
